Mr. William Valeri
Irathane Systems, Inc.
P.O. Box 276
Hibbing, Minnesota 55746

Dear Mr. Valeri:

The Minnesota Pollution Control Agency (MPCA) has evaluated your hazardous waste disclosure dated June 15, 1984 and finds the proposed management plans for the following wastes to be acceptable management practices on an interim basis:

Waste Inventory
Number

Waste Name

2

Prepolymer

3

Solvent, Halogenated

4

Used Crankcase Oil

If Irathane Systems, Inc. desires a change in the method of disposal or if the chemical constituents for the above listed wastes change, the MPCA shall be notified pursuant to 6 MCAR § 4.9002 D.2. The management change shall not be implemented until the MPCA issues approval of the amended management plan.

Because MPCA hazardous waste rules are currently being revised, we are not able to grant final approval of your disclosure at this time. If Irathane Systems, Inc. satisfies the requirements outlined in the new MPCA rules, those management plans will then receive final MPCA approval. If your practices do not comply with the new rules, appropriate management changes will be required.

If Irathane Systems, Inc. begins to generate a new hazardous waste, a management plan shall be submitted to the MPCA within ninety days after first producing the waste. The waste shall neither be disposed of nor change possession until at least thirty days after the management plan is filed with the MPCA, pursuant to 6 MCAR § 4.9003 E.2.a.

Mr. William Valeri
Page Two

The generator identification number assigned to Irathane Systems, Inc. is MND022818306. This number shall be used on the hazardous waste labels and on shipping papers when shipment is made to an off-site facility, pursuant to 6 MCAR § 4.9003 H.1.d. and § 4.9008 C.3.a.

As approved, the information provided on the submitted management plans for the listed hazardous wastes will satisfy the MPCA annual resubmission requirements (as outlined in 6 MCAR § 4.9003 E.3.). Therefore, Irathane Systems, Inc. will not be required to submit a new disclosure until next year.

The MPCA is currently working on rule revisions that will provide a new disclosure resubmission approach similar to the Environmental Protection Agency annual report requirements. Once rule revisions are completed, the MPCA will send instructions and the appropriate forms for you to complete.

If you have any questions regarding this approval, please call Nancy Misra of my staff at 612/296-7358.

Sincerely,

Original Signed By *DLW*
